Notes to Editor

Marathon is a minerals exploration company focused on the development of Mt Gee, one of Australia's largest undeveloped uranium deposits.

The Mt Gee project is located within the Paralana Mineral System of South Australia, a uranium-rich state which is home to the world's largest uranium deposit at Olympic Dam.

Marathon's portfolio also includes highly prospective copper-gold-uranium properties in the Gawler Craton of South Australia.

The Company has gold and copper-gold projects in other parts of South Australia and western Victoria, including first class copper-gold and base metal (silver-lead-zinc) projects in the Adelaide Geosyncline in South Australia and a prospective copper-gold project in the Moyston Fault Zone in Victoria.

Marathon also has a joint venture with listed uranium explorer UraniumSA Ltd (ASX: USA), in which the company holds a 7% stake; and with Primary Resources Ltd (ASX: PRZ) in the Warburton Project in Western Australia.

Marathon listed on the Australian Securities Exchange on 15 March 2005, under the stock code of MTN.
